INDEX

ACKERMAN, C. J. Reversal of sulfaguanidine toxicity in the rat, 131.

ADAMS, F. W., AND J. R. HAAG. Copper contents of citrated whole blood and plasma of cattle, 585.

AFTERGOOD, L. See Alfin-Slater, R. B., 241.

ALFIN-SLATER, R. B., A. F. WELLS, L. AFTERGOOD AND H. J. DEUEL, JR. Nutritive value and safety of hydrogenated vegetable fats as evaluated by long-term feeding experiments with rats, 241.

AMERICAN INSTITUTE OF NUTRITION
Editor of Journal of Nutrition, report of, 1956, 164.
Election of officers for 1957-58, 163.
New members elected, 1957, 168.
Proceedings, 21st. Annual Meeting, 163.

Amino acids, essential, classification of for chinook salmon. Nutrition of salmonoid fishes. V., 95.

Ascorbic acid, effect of on calcium and phosphorous metabolism of women, 425.

— effect of in pantothenic acid deficiency, 601.

— — and vitamin E, interrelationship of. Iron absorption and metabolism, I., 19.

ANDRUS, S. B. See Hegsted, D. M., 273.

AUSKAPS, A. N., O. P. GUPTA AND J. H. SHAW. Periodontal disease in the rice rat. III. Survey of dietary influences, 325.

Azo dye carcinogenesis, dietary copper salts and, 301.

BARBORIAK, J. J., AND W. A. KEEHL. Effect of ascorbic acid in pantothenic acid deficiency, 601.

BARBORIAK, J. J., W. A. KEEHL, G. R. COWGILL AND A. D. WHEDON. Effect of partial pantothenic acid deficiency on reproductive performance of the rat, 591.

BARNES, R. H., G. FIALA, B. MCGEHEE AND A. BROWN. Prevention of coprophagy in the rat, 489.

BAUGHAN, M. A. See Wiese, H. F., 523.

BAUMANN, C. A. See Gitler, C., 399.

BAUR, L. S. See Dju, M. Y., 437.

BAVETTA, L. A., AND F. J. MCCLURE. Protein factors and experimental rat caries, 107.

Bean (lima) and pea protein, biological value of as affected by radiation sterilization, 143.

BENTLEY, K. D. See Wynn, W., 57.

BERGER, F. M. See Konishi, F., 41.

Biological value of milk proteins, assay of by liver xanthine oxidase determination. I. Powdered products, 437.

— — of pea and lima bean proteins. The effect of radiation sterilization on the nutritive value of foods. II., 143.

Blood, citrated whole, copper contents of in cattle, 585.

— oxidized pyridine nucleotides in various fractions of in women on a controlled adequate dietary, 539.

— pyridine nucleotides, relative roles of niacin and tryptophan in maintaining in adult rats, 361.

— whole, pyridoxal-5-phosphoric acid in, 623.

Body weight and bone growth. Effects of biologically unavailable lysine (heated casein) on growth. I., 509.

Bone growth, effect of biologically unavailable lysine (heated casein) on, 509.

Borden award in nutrition, 1958 invitation, 175, 321, 323.

BOXER, G. E., M. P. PRUSS AND R. S. GOODHART. Pyridoxal-5-phosphoric acid in whole blood and isolated leucocytes of man and animals, 623.

BROWN, A. See Barnes, R. H., 489.

BUTTNER, W., AND J. C. MUHLER. The effect of fluoride administration on fluoride deposition in tissues and on serum cholesterol in the rat, 263.

CALCIUM and Phosphorus metabolism of women, effect of ascorbic acid and orange juice on, 425.

Calorie utilization, effects of protein per Calorie ratio and dietary level of fat on, 555.

CAMA, H. R., N. C. PILLAI, P. R. SUNDARESAN AND C. VENKATESHAN. The effect of thyroid activity on the conversion of carotene and retinene to vitamin A and on serum proteins, 571.

Carcinogenesis, azo dye, dietary copper salts and, 301.

Caries, dental, in the albino rat in relation to the chemical composition of the teeth and of the diet. III. Composition of incisor teeth of animals fed diets with different Ca/P ratios, 57.

Carotene, conversion to vitamin A, effect of thyroid activity on, 571.

CARTER, L. M. See Scoular, F. I., 449.

Cats, effect of vitamin D-deficient diets containing different Ca:P ratios on, 79.

Cattle, copper contents of citrated whole blood and plasma of, 585.

CHALOUPKA, M. M., J. N. WILLIAMS, JR., M. S. REYNOLDS AND C. A. ELVEHJEM. Relative roles of niacin and tryptophan in maintaining blood pyridine nucleotides, nitrogen balance and growth in adult rats, 361.

Chick-growth factor in egg yolk, 499.

Cholesterol, cholic acid and type of fat, quantitative effects on serum cholesterol and vascular Sudanophilia in the rat, 273.

— ester in serum of dogs, effect of fat in diet on unsaturated fatty acids in, 523.

— linoleic and linolenic acid content of eggs as influenced by dietary fats, observations on, 119.

— serum, quantitative effect of cholesterol, cholic acid and type of fat on, in the rat, 273.

— serum, in the rat, effect of fluoride administration on fluoride deposition in tissues and on, 263.

Cholic acid, quantitative effect on serum cholesterol and vascular Sudanophilia in the rat, 273.

Choline deficiency and muscular dystrophy in rabbits, further studies on, 289.
CLAYTON, C. C. See King, H. J., 301.
COPELAND, D. H. See Hove, E. L., 289.
Copper contents of citrated whole blood and plasma of cattle, 585.
— salts, dietary, and azo dye carcinogenesis, 301.
Coprophagy in the rat, prevention of, 489.
Corn, whole yellow, addition of small amounts of defatted fish flour to, 409.
Cows, dairy, studies of the effects of dietary NaF on. I. The physiological effects and the developmental symptoms of fluorosis, 211.
COWGILL, G. R. See Barboriak, J. J., 591.
Creatine, tissue concentrations of. Vitamin E deficiency in the monkey. II., 393.
CRUDUP, M. See Sure, B., 409.
CULIK, R. See Rosenberg, H. R., 477.

DAY, P. L. See Dinning, J. S., 393.
DAVIS, A. N. See Scoular, F. I., 449.
DELONG, D. C. See Halver, J. E., 95.
Dental caries (See Caries, dental).
DENTON, C. A. See Menge, H., 499.
DRUEL, H. J., JR. See Alfin-Slater, R. B., 241.
DEWELL, J. See Sure, B., 409.
Dialuric acid, hemolysis of red blood cells of rats on a necrogenic diet by, effect of yeast and yeast extracts on, 461.
Diet(s) composition and mineral balance in guinea pigs, 65.
— influence of and of low environmental temperatures on growth and on the lipid content of livers in the rat. Nutrition studies in the cold. I., 611.
— necrogenic, effect of yeast and of yeast extracts on liver necrosis and hemolysis by red blood cells of rats on, 461.
— purified, growth of rabbits on, 193.
— self-selected, excretion of certain nutrients by young college women consuming, 449.
— vitamin D-deficient, containing various Ca:P ratios, effect of on cats, 79.
Dietary composition and adequacy of the food consumed by young men on an ad libitum regimen, 41.
— influences, survey of. Periodontal disease in the rice rat. III., 325.
DINNING, J. S., AND P. L. DAY. Vitamin E deficiency in the monkey. II. Tissue concentrations of nucleic acids and creatine, 393.
DISQUE, D. T. See Wertman, K. F., 311.
DJU, M. Y., L. S BAUR AND L. J. FILER, JR. Assay of biological value of milk proteins by liver xanthine oxidase determination. I. Powdered products, 437.
N, N'-Diphenyl-*p*-phenylenediamine (DPPD), substitution of for vitamin E. Iron absorption and metabolism. II., 33.
Dogs, effect of fat in diet on unsaturated fatty acids in phospholipid, cholesterol ester and glyceride fractions in serum of, 523.
DUBYEE, F. See Morley, N., 539.

EASTERLING, L. See Sure, B., 409.
EDWARDS, M. M. See Morley, N., 539.
EGG(s), observations on the cholesterol, linoleic and linolenic acid contents of as influenced by dietary fats, 119.
— yolk, chick-growth factor in, 499.
ELVEHJEM, C. A. See Chaloupka, M. M., Yoshida, A., 361.

FAT(S) in diet, effect of on unsaturated fatty acids in phospholipid, cholesterol ester and glyceride fractions in serum of dogs, 523.
— dietary, influence on the cholesterol, linoleic and linolenic acid content of eggs, 119.
— — level of, effect of on calorie and protein utilization, 555.
— effect of various upon experimental hypercholesteremia in the rat, 477.
— hydrogenated vegetable, nutritive value and safety of as evaluated by long-term feeding experiments with rats, 241.
— type of, quantitative effect of on serum cholesterol and vascular Sudanophilia in the rat, 273.
Fatty acids, unsaturated, in phospholipid, cholesterol ester and glyceride fractions in serum of dogs, effect of fat in diet on, 523.
Feather pigmentation of turkey poults, role of lysine in growth and, 471.
FIALA, G. See Barnes, R. H., 489.
FILER, L. J., JR. See Dju, M. Y., 437.
Fish flour, def.-ted, addition of small amounts of to whole yellow corn, whole wheat, whole and milled rye, grain sorghum and millet, 409.
Fishes, salmonoid, nutrition of. V. Classification of essential amino acids for chinook salmon, 95.
FISHER, H., AND G. A. LEVEILLE. Observations on the cholesterol, linoleic and linolenic acid content of eggs as influenced by dietary fats, 119.
FLICK, D. F. See Treadwell, C. R., 611.
Fluoride, effect of administration of on deposition in tissues and on serum cholesterol in the rat, 263.
Fluorosis, in dairy cows, physiological effects of NaF and developmental symptoms, 211.
Food(s) consumed by young men on an ad libitum regimen, dietary composition and adequacy of, 41.
— effect of radiation sterilization on the nutritive value of. II. Biological value of pea and lima bean proteins, 143.
— exposed to ionizing radiations, vitamin content of, 201.
— nutritive value of several grown at different locations, 345.
FORBES, M., AND P. GYORGY. Effect of yeast and of yeast extracts on liver necrosis and hemolysis by dialuric acid of red blood cells of rats on a necrogenic diet, 461.
FRIEDMANN, T. E. See Konishi, F., 41.

GERSHOFF, S. N., M. A. LEGG, F. J. O'CONNOR AND D. M. HEGSTED. The effect of vitamin D-deficient diets containing various Ca:P ratios on cats, 79.
GITLER, C., M. L. SUNDE AND C. A. BAUMANN. Necrogenic potency of yeasts grown on various media, 399.
Glyceride fraction in serum of dogs, effect of fat in diet on unsaturated fatty acids in, 523.
GOODHART, R. S. See Boxer, G. E., 623.
GOTSIS, A. See Hegsted, D. M., 273, 377.
GRAY, D. R. See Wynn, W., 57.
GRAY, L. F., M. SPEIRS AND G. MATRONE. The nutritive value of several foods grown at different locations, 345.
Grain sorghum, addition of small amounts of defatted fish flour to, 409.
GREENBERG, S. M. See Tucker, R. G., 33.

GREENBERG, S. M., R. G. TUCKER, A. E. HEMING AND J. K. MATHUES. Iron absorption and metabolism. I. Interrelationship of ascorbic acid and vitamin E, 19.
Growth in adult rats, relative roles of niacin and tryptophan in maintaining blood pyridine nucleotides, nitrogen balance and, 361.
— effect of biologically unavailable lysine (heated casein) on. I. Body weight and bone growth, 509.
— and feather pigmentation of turkey poults, role of lysine in, 471.
— and nitrogen utilization. The net utilization of non-specific nitrogen sources. I., 177.
— of rabbits on purified diets, 193.
GUGGENHEIM, K., AND S. HALEVY. Metabolism of pteroylglutamic acid and liver levels of nucleic acids, 225.
Guinea pigs, diet composition and mineral balance in, 65.
GUPTA, O. P. See Auscaps, A. N., 325.
GYORGY, P. See Forbes, M., 461.

HAAG, J. R. See Adams, F. W., 585.
HALBERT, M. L. See Leichsenring, J. M., 425.
HALDI, J. See Wynn, W., 57.
HALEVY, S. See Guggenheim, K., 225.
HALVER, J. E., D. C. DELONG AND E. T. MERTZ. Nutrition of salmonoid fishes. V. Classification of essential amino acids for chinook salmon, 95.
HANSEN, A. E. See Wiese, H. F., 523.
HARPER, A. E. See Yoshida, A., 555.
HAWKINS, J. M. See Konishi, F., 41.
HAZLET, J. W. See Sharp, G. S., 155.

— — tissue concentrations of. Vitamin E deficiency in the monkey, II., 393.
Nutrition of salmonoid fishes. V. Classification of essential amino acids for chinook salmon, 95.
— studies in the cold. I. Influence of diet and low environmental temperature on growth and on the lipid content of livers in the rat, 611.
Nutritive value and safety of hydrogenated vegetable fats as evaluated by long-term feeding experiments with rats, 241.
— — of foods, effect of radiation sterilization on. II. Biological value of pea and lima bean proteins, 143.
— — of several foods grown at different locations, 345.

O'CONNOR, F. J. See Gershoff, S. N., 79.
O'DELL, B. L., E. R. MORRIS, E. E. PICKETT AND A. G. HOGAN. Diet composition and mineral balance in guinea pigs, 65.
Orange juice, effect of on calcium and phosphorous metabolism of women, 425.
Osborne and Mendel award in nutrition, 1958 invitation, 196, 322, 323; 1957 presentation, 172.

PACE, J. K. See Scoular, F. I., 449.
PALMER, LEROY SHELDON (March 23, 1887 — March 8, 1944), 3.
Pantothenic acid deficiency, effect of ascorbic acid in, 601.
— — — (partial) effect of on reproductive performance of the rat, 591.
Pea and lima bean proteins, biological value of as affected by radiation sterilization, 143.
Periodontal disease in the rice rat. III. Survey of dietary influences, 325.
PHILLIPS, P. H. See Suttie, J. W., 211.
Phospholipid in serum of dogs, effect of fat in diet on unsaturated fatty acids in, 523.
Phosphorous (calcium and) metabolism of women, effect of ascorbic acid and of orange juice on, 425.
PICKETT, E. E. See O'Dell, B. L., 65.
PILLAI, N. C. See Cama, H. R., 571.
PITTS, W. L. See Scoular, F. I., 449.
Plasma of cattle, copper contents of, 585.
PORTMAN, O. W. See Hegsted, D. M., 273.
Protein per Calorie ratio and dietary level of fat, effects of on calorie and protein utilization, 555.
— factors in experimental rat caries, 107.
— milk, assay of biological value of by liver xanthine oxidase determination. I. Powdered products, 437.
— pea and lima bean, biological value of as affected by radiation sterilization, 143.
— retention and turnover, studies of using nitrogen-15 as a tag, 155.
— serum, effect of thyroid activity on, 571.
— utilization, effect of protein per Calorie ratio and dietary level of fat on calorie and, 555.
PRUSS, M. P. See Boxer, G. E., 623.
Pteroylglutamic acid, metabolism of, and liver levels of nucleic acids, 225.
Pyridine nucleotides, oxidized, in various fractions of the blood and niacin and tryptophan metabolites in the urine of women on a controlled adequate dietary, 539.
Pyridoxal-5-phosphoric acid in whole blood and isolated leucocytes of man and animals, 623.

RABBITS, growth of on purified diets, 193.
— muscular dystrophy in, further studies on choline deficiency and, 289.
Radiation(s), ionizing, vitamin content of foods exposed to, 201.
— sterilization, effect of on the nutritive value of foods. II. Biological value of pea and lima bean proteins, 143.
RANKIN, A. B. See Scoular, F. I., 449.
Rat(s), adult, relative nutritive roles of niacin and tryptophan in maintaining blood pyridine nucleotides, nitrogen balance and growth in, 361.
— albino, dental caries in, relation to the chemical composition of the teeth and of the diet. III. Composition of incisor teeth of animals fed diets with different Ca/P ratios, 57.
— caries, protein factors in experimental, 107.
— effect of fluoride administration on fluoride deposition in tissues and on serum cholesterol in, 263.

— hypercholesteremia in, effect of various fats upon, 377.
— influence of diet and low environmental temperature on growth and on the lipid content of livers in. Nutrition studies in the cold. I., 611.
— long-term feeding experiments with, nutritive value and safety of hydrogenated vegetable fats as evaluated by, 241.
— on a necrogenic diet, effect of yeast and of yeast extracts on liver necrosis and hemolysis by dialuric acid of red blood cells of, 461.
— prevention of coprophagy in, 489.
— reproductive performance of, effect of partial pantothenic acid deficiency on, 591.
— reversal of sulfaguanidine toxicity in, 131.
— rice, periodontal disease in. III. Survey of dietary influences, 325.
— thiamine-deficient, effect of a low environmental temperature on the weight and food consumption of, 417.
— serum cholesterol and vascular Sudanophilia in, quantitative effects of cholesterol, cholic acid and type of fat on, 271.
RECHCIGL, M., JR., J. K. LOOSLI AND H. H. WILLIAMS. The net utilization of nonspecific nitrogen sources. I. Growth and nitrogen utilization, 177.
Retinene, conversion to vitamin A, effect of thyroid activity on, 571.
